

YOUR ATTENDANCE IS IMPORTANT TO US!

Hybrid programming is an option.

Compass is your partner in building a plan that gets you back to your life in the shortest possible time. Our data shows that patients who stay for the recommended number of treatment days and have high treatment adherence are less likely to need PHP or IOP treatment, in the future.

Attending program every day is recommended, and we are here to support you daily, even when barriers arise.

If you are unable to attend on-site programming due to:

- ✓ Physical health symptoms.
- ✓ Appointments that interfere with a portion of program time.
- ✓ Transportation difficulties.
- ✓ Or any barrier that interferes with on-site participation.

To best serve patients, we now offer **Hybrid Programming** where you can **virtually join on-site programming for the day (or a portion of the day).**

The use of Hybrid Programming can be pre-planned, **or** you can call same day and ask for a virtual link to attend for the day.

Please contact your treatment team or main Compass phone number: **224-306-1879**
